

1 CLAIM: A new and distinct variety of peach tree,  
2 substantially as illustrated and described, characterized by  
3 its large size, vigorous, upright growth, and being a regular  
4 and productive bearer of medium to large size, early  
5 maturing, yellow flesh, clingstone fruit with good flavor and  
6 eating quality. The fruit is further characterized by having  
7 firm flesh, an attractive orange-red blush covering the rich,  
8 yellow skin color with good handling and shipping qualities  
9 and in comparison to the variety 'Super Rich' Peach (U.S.  
10 Plant Patent #9860), the tree of the new variety requires  
11 approximately 350 hours less winter chilling and its fruit  
12 matures approximately 7 days earlier.
